

Putting Fuel Cells

TO WORK

Environmental Policy

Environmental Commitments

Ballard's company vision is to be the leading global provider of innovative clean energy solutions. Through the application of Ballard's extensive fuel cell and systems know-how, the organization delivers innovative clean energy solutions to our customers.

It is our goal at Ballard to act as corporate leaders with respect to environmental sustainability and stewardship.

Further, we make these specific commitments:

- we will strive to reduce our environmental impact, including reducing pollution;
- we will conduct our operations in an environmentally sound manner by applying an Environmental Management System, such as ISO 14001;
- we will comply with all applicable environmental legal and regulatory requirements;
- we will strive to train our employees in best practices to support our environmental goals;
- we will strive to develop our manufacturing processes with a focus on energy and resource efficiency;
- we will promote environmental responsibility along the value chain by encouraging suppliers, contractors and customers to adopt international environmental standards;
- we will strive to develop and market products and systems which are resource efficient and facilitate the use of renewable energy sources; and
- we will strive to continually improve our Environmental Management System through the setting and reviewing of our environmental objectives.

This environmental policy statement is an integral part of Ballard's commitment to sustainability. The Ballard Executive Team will strive to fulfil these commitments and provide the appropriate resources and support to achieve these commitments.

THE POWER OF FUEL CELLS, SIMPLY DELIVERED
